GARNIER-THIEBAUT USA

BEHIND 189 YEARS OF EXPERIENCE

Garnier Thiebaut is established in the USA since 1997. We acquired Hilden America, a linen company, in 2010 to widen our offer. Our corporate offices are located in Arlington and our warehouse and a sewing operation in South Boston, Virginia. We manage the entire manufacturing process from dyeing the thread to the distribution of the finished packaged products. We specialize in home textiles, including; bed, bath, table and kitchen linens.

Garnier-Thiebaut, founded in 1833 in the heart of the Vosges region in France, has pioneered many of the textile industry's design and technology inventions for the production of fine linens. Today the company's modern plants in Gerardmer are Europe's most advanced manufacturing centers for the design, color and production of fashion fabrics for the hospitality industry and the home. Renowned for their luxurious damask and printed designs, Garnier Thiebaut linens make an immediate impact with their vivid colors and unique patterns.
