DECORATING THE WORLD

INSIDE

Garnier-Thiebaut USA

Before becoming a worldwide leader in luxury linen,
Garnier-Thiebaut was born from a family story.

It all begins in 1833 in the heart of the Vosges Region in Gérardmer, with the marriage of two weavers, Jean-Baptiste Garnier and Virginie Thiebaut. Through the ages, they transmitted their know-how and love for linen. The brand was built around authenticity, passion and a wish to create the linen of tomorrow.

Garnier-Thiebaut belongs to HDM Industries; a 12th generation, family-owned business and a global leader in the field of textile, work wear, hospitality and homes. We are a vertical company and we manage all the manufacturing steps: designing collections, dyeing threads, weaving, processing and finishing fabrics, cutting, sewing packaging and delivering finished products.

To create a singular proximity with its customers, Garnier-Thiebaut arrived in the US in 1997 and imported its French "Savoir-Faire" featured through 4 brands: Garnier-Thiebaut, Hilden America, Rue Montmartre and GT Hotel Collection. As a worldwide recognized linen designer and manufacturer, we offer today tailored products and services to fit all budgets and needs. We own a cutting and sewing facility in Virginia to better service the US market and we stock bed, bath and table linen collections in both Virginia and California. We offer all fabrics and qualities: flax, polyflax, metis, 100% cotton, cottonrich, polyester and microfiber.

With a human scale team and the performance of an international company, we designed an approach to meet your expectations and bring your ideas to life. My dedicated team and I transmit everyday this passion for quality linen.
